Marcus Rashford has committed his future to Manchester United after agreeing a new five-year contract. The 19-year-old has been a key player in Louis van Gaal's side this term, making a significant contribution in both the Champions League and in the Premier League. The deal is a significant endorsement of Rashford's future at Old Trafford, as he becomes the eighth member of United's current first-team squad to sign on after some eye-catching performances in 2013. "In the last five seasons we have seen a number of young players develop into world class players, I am really proud to have been part of that group," said Rashford. "My aim is to help the team as much as I can over the next few years and I can't wait to get started. "The contract is a good way to finish this season and to look ahead. Obviously being a footballer and playing at the highest level is not easy, but I am doing everything I can to keep improving and hopefully continue to be part of the team."

Q: Is there a counterpart to the havuq What term in Hebrew, Aramaic or Arabic is used for a fixed group of people to whom reference can be made, both in the literary and the technical language? This would be a counterpart to a hevel, and the havuq is a counterpart to the tzar. A: As it is currently being used, I believe the closest Hebrew equivalent to "partner" is "gemara" and the closest Aramaic/Arabic counterpart to "partner" is "qaanin" and "qaanit". In much of Biblical Hebrew, the word "gemara" could refer to a fixed group, but only as a single group of two (of course, there are lots of hevelim, hebraeans, and avonim). The first hevel were listed in the Tanakh of the Torah, with no mention of the term "gem

I like the program, it's easy to use, and it's a perfect program to experiment with. I haven't found anything that I do not like about it. However, one thing that I do not like, is that it freezes when you are trying to save the image. I found it can happen with large images. I don't know if it's the program that's having a problem with, or the saving part. I have installed it in two Windows 7 and they both freeze at the same time. I haven't found anything about this. Thanks for your suggestions and suggestions. Hey Jeljke Thanks for the suggestion. No problem. If the program doesn't freeze when I save the image, I may try to use it.
